EAR CANDLING

60 minutes - USD.40++

An ancient therapeutic method of removing inner debris through a natural vacuum. This simple and time proven therapy can be very effective in removing old troublesome blockages from the ear canal. A special conical candle is inserted into a protective plate. The candle is lit and slowly begins to burn. The small tapered end of the candle is gently placed into your ear canal. The ear candle by its shape, design and length draws ear wax and fungus deposits from deep inside your ear canal. As the ear candling session progresses, extracted ear wax and fungus will be burned off, but majority will be collected in the bottom part of the candle. It is not a cure for any disease, illness or ailment.
